

Improve your productivity with resource-efficient materials

Free half-day workshop

23 May Earnley Concourse, Chichester

30 June Hadlow College, Tonbridge

20 June Whitney Lakes Resort, Witney

Compost, soil conditioners, fertilisers, site drainage and recycled aggregates. High-performance, quality assured recovered materials to help you increase efficiency and stay competitive.

Find out how to:

- Save money and boost your environmental performance
- Reduce your reliance on fertilisers and herbicides
- Improve your soil structure, nutrient profile and drainage

Free to attend. Places limited. Sign up today

- Find out the latest news on these quality assured materials
- Hear from industry experts and meet other businesses already using them
- See material samples, technical specs, market information
- E-mail your questions and we'll answer them at the workshop

Who should attend?

Farmers, growers, livestock producers, market gardeners, horticulture businesses, FACTS advisers, agronomists, and foresters.
