Latest update from BCS

Upcoming BCS Operators' Forum

The next BCS Operator' Forum meeting will be held on **Wednesday 27th October 2021** via video conference facilities and will run from **10-1.30pm**. During this meeting, a detailed update will be provided on the second project of the Research Hub *'To develop a 'data pack' on the properties, characteristics, and content of digestate that will provide the context for the development of new uses of outputs from Anaerobic Digesters'* and there will be an opportunity to discuss the submission of research proposals to the Research Hub with REAL's Research Hub Advisor.

The notes from the last meeting can be found on our website [here](#). If you are interested in attending in October, please email info@realschemes.org.uk and details of how to join will be sent to you. Please note, places will be allocated on a first come, first serve basis with a maximum number of 15 attendees.

Upcoming BCS Understanding Test Results Webinar

REAL has developed a new webinar, 'Understanding Test Results', for operators. The webinar is designed for operators to gain an insight into the test methods used under BCS and help with interpretation of results. It is especially suited for those new to the scheme or with a limited understanding of digestate testing. The webinar is not designed for individuals with detailed understanding of testing. Our CCS webinars have proven popular with compost producers, providing a chance to learn and an effective platform for discussion on this topic with REAL and other producers.

The first opportunity to attend this webinar will be **Friday 1st October** from **10.30-11.30 am**. The cost is £50pp to attend. If you are interested in attending the webinar or if you would like any further information, please contact REAL at info@realschemes.org.uk.

BCS Annual Report 2020

REAL has published its fourth annual report for the Biofertiliser Certification Scheme, providing an overview of the scheme and summary of scheme developments in 2020. The report also presents an overview of the Compost Certification Scheme and includes the Research Hub 2020 Annual Report.

You can find the report on our website [here](#).
